PROFESSIONAL SUMMARY

Flutter Mobile Developer with experience building and maintaining production mobile applications using Flutter, Firebase, and REST APIs. Worked on freelance and startup projects, collaborating with designers, backend developers, and product teams to deliver cross-platform applications for Android and iOS. Familiar with app deployment, CI/CD workflows, and mobile app architecture.

WORK EXPERIENCE

Stone Street Syndicate 🔗, *Flutter Developer* 08/2025 – Present | Remote, United States

- Developed and maintained cross-platform Flutter applications for a photography booking platform.
- Implemented booking flows, push notifications, payment integration, and subscription features using Firebase, Stripe, and RevenueCat.
- Collaborated with the founder to support new product features, Firebase integrations, and app releases.

Upwork 🔗, *Freelance Flutter Developer* 08/2021 – Present | Remote

- Developed and delivered cross-platform mobile applications for international clients using Flutter and Firebase.
- Worked on API integration, authentication, push notifications, payment systems, and app deployment.
- Collaborated with clients to translate business requirements into production-ready mobile applications.

Information Technology Institute (ITI), 03/2023 – 07/2023 | Hybrid, Egypt

Mobile & Front-End Development Trainee

- Completed intensive training in Flutter, React, Angular, and mobile application development.
- Collaborated within an Agile team to develop a smart parking graduation project.

KEY PROJECTS

Stone Street - Photography Booking Platform, 08/2025 – Present

Stone Street Syndicate

Flutter, Firebase, Stripe, RevenueCat, CI/CD

App Store 🔗 | **Play Store** 🔗

- Developed features for photographer discovery, booking, subscriptions, and push notifications.
- Worked on Firebase integrations, deep linking, and Flutter web admin functionality.

Penpoints - AI-Powered Spelling Coach, Client Project 09/2024 – 08/2025

Flutter, Firebase, OpenAI API, Cloud Vision, QR Code

App Store 🔗 | **Play Store** 🔗

- Developed an interactive learning app that analyzes handwritten spelling submissions using AI and image processing.
- Implemented real-time feedback, Text-to-Speech functionality, and Firebase backend integration.

AKM - Concrete Order Tracking Platform, Client Project 10/2023 – 04/2024

Flutter, Firebase, REST APIs, Google Maps

App Store 🔗 | **Demo** 🔗

- Developed a concrete order tracking application with real-time location tracking and delivery status updates.
- Implemented Google Maps integration, bilingual support (English & Arabic), and Firebase services for notifications and analytics.

TECHNICAL SKILLS

Flutter & Dart • Firebase • REST APIs • BLoC / Provider • Google Maps & Location Services • Push Notifications • Stripe & RevenueCat • CI/CD • Git & GitHub • App Store & Google Play Deployment

EDUCATION

Cairo University, 2015 – 2019 | Giza, Egypt
Bachelor of Commerce - Accounting & Finance
